ROOF PIN

CABLE

INSTALLATION

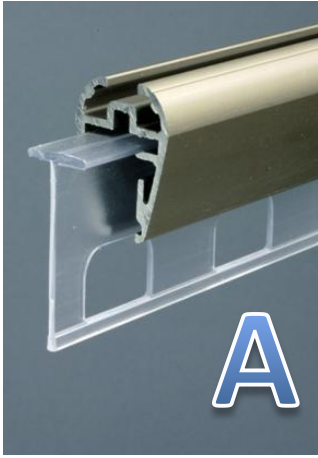

Photo A (Left)

Insert STRM in to base of Mini Track.

Photo B (Left)

Insert Mini Loop D in to end of Mini Track.

Photo C (Left)

Insert Mini End in to end of Mini Track.

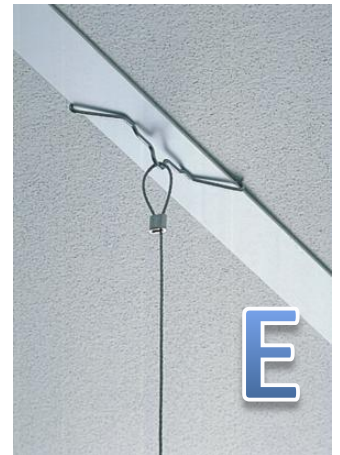

Photo D (Right)

Insert Mini Join D between 2 Mini Tracks, if using multiple Mini Tracks in a single continuous line.

Photo E (Right)

Place AL Roofpin into T Tracks in ceiling, spacing appropriately. Cut cable to required length, loop around Roofpin, clamp and repeat at Mini Join and Mini Loops

Photo F (Right)

Place FX CL clip on either side of frame and hang from STRM
